

Andre Pineda

Hi there,

I was a college professor back in the Philippines for 12 years before we migrated to Canada and later, got a job in Whiteriver Arizona. I am a Physics and Chemistry teacher of Alchesay High School. My school is located in the Apache Indian Reservation, 4 hours away from Phoenix. Right now, I am working on EYEPOD (Examining Your Environment Through the Power of Data) Project with two professors of Northern Arizona University. This project is concern on the application of GIS technology in teaching Earth and Environmental Science.

I am very much excited to be a part of this group.

PLC Members

My PLC members are all from the Native American Reservation Area. We called our group as Whitemountain Teachers For Climate Change Awareness PLC

Ermelda Ayunon – Pinon HS

Zenaida Lucas – Pinon HS
Rhoma Geronimo – Canyon Day Jr HS
Ria Crow – Canyon Day Jr HS
